

Power & Gas Industry

“Lakers” carry out Detail design, fabrication, installation, radiography, & testing of pipework systems including installation of associated mechanical equipment for the Power & Gas industries. All our systems are approved to ISO 9001:2008

Boiler Plants, CHP, Waste to Energy & Bio-fuels

- Detail design
- High pressure systems
- Low pressure systems
- Gas
- Boiler feed water
- Cooling water
- Lube oil
- Fuel oil
- Associated services
- Mechanical plant installation
- Modularized construction

Flue gas Desulphurisation

- Oxidation air
- Process water
- Instrument air
- Vacuum systems
- Steelwork
- Mechanical plant installation
- Installation of GRP Piping Systems
